

Environmental Policy Statement

Corramore Construction Ltd recognises the importance of environmental protection and will comply with all environmental regulations, legislation and approved codes of practice relating to processes and activities of the Company. It is our objective to co-operate with and maintain good relations with all regulatory authorities and bodies.

We have developed a list of procedures and objectives within our ISO 14001 Environmental Management System which continually challenge us to reach our targets and look ahead to where we can next improve upon. It is our policy to strive for continual improvement in environmental performance, with the aim to, wherever possible:-

- * Assess the environmental effects of the Company's activities in the construction industry
- * Lessen the amount of waste produced
- * Increase the use of materials that can be recycled
- * Reduce the consumption of raw materials, water, utilities and fuels
- * Reduce and/or limit the production of pollutants to water, land and air
- * Limit the noise within and around each site
- * Lessen the risk of harm to employees, members of the public and the environment from processes and activities associated with the Company
- * Control the storage, transportation and disposal of hazardous materials in a responsible manner

Managing Director
